

**Family Law Forum 2016
May 18, 2016 - Nashville**

Program Description: This year's annual program will focus on key issues for family law practitioners to advance their skills and knowledge. The seminar we will discuss electronic records and legislative updates. Topics include e-discovery, grandparent visitation, custodial interference, adoptions, evictions of domestic violence and other criminal law implications that occur in family law. Don't miss this opportunity to gather with attorneys who practice in this area.

Agenda

- | | |
|------------------|--|
| 11:30 – 12:00 pm | Registration/ Welcome |
| 12:00 – 1:00 pm | Using Digital Evidence to Win Your Case and Protect Your Client
<i>In this program we will discuss the types of digital evidence that can be found in mobile devices, social media accounts, web-based email, cloud stored data and traditional computers. Our discussion will cover how, when and why digital evidence should be preserved and the options available to firms when confronted with situations where business/relevant data is comingled with personal/non-relevant data.</i>
